PROFESSIONAL SUMMARY

AI Engineer with 2+ years building production-grade agentic AI systems, multi-agent pipelines, and LLM-powered applications. Expert in LangChain, LangGraph, CrewAI, N8n, and Microsoft Copilot Studio, delivering enterprise AI agents that automate finance, procurement, and customer workflows with measurable impact. Proficient in AI evals, FastAPI microservices, RAG architectures, and integrating LLM workflows into enterprise ERP systems.

TECHNICAL SKILLS

AI Agents	LangChain, LangGraph, CrewAI, Microsoft Copilot Studio, Oracle AI Agent Studio, MCP Protocol
LLM / RAG	OpenAI GPT-4o, Azure OpenAI, Claude API, Prompt Engineering, Tool Calling, RAG, AI Evals, RLHF
Automation	N8n, Agentic Workflows, Human-in-the-Loop, Guardrails, Multi-Agent Orchestration
Backend & Tools	Python, FastAPI, REST APIs, SOAP APIs, PL/SQL, SQL, JSON, Microservices, Git, GitHub, Postman, Docker
Cloud & Oracle	Azure AI Foundry, Azure AI Search, OCI AI Services, Oracle Integration Cloud (OIC3), Oracle Fusion ERP, BI Publisher, OTBI, VBCS, Oracle Vector Database

PROFESSIONAL EXPERIENCE

Senior Associate Consultant – AI Engineer | **CES Limited** | Jul 2024 – Present

- Designed and deployed 8+ enterprise AI agents using LangGraph, Microsoft Copilot Studio, and Oracle AI Agent Studio, cutting manual effort in finance and procurement workflows by ~60%.
- Built multi-agent pipelines with LangChain and CrewAI for invoice processing, vendor onboarding, and customer support triage.
- Developed N8n workflows linking AI agents to Oracle Fusion ERP, email triggers, and approvals across 5+ business processes.
- Built an AI Evals framework across 200+ test cases, improving agent reliability by 35% through iterative prompt optimization.
- Built 5+ FastAPI microservices exposing agents as REST endpoints, plus RAG apps on Azure AI Foundry and AI Search over 10K+ documents.
- Delivered 15+ Oracle Fusion REST/SOAP integrations via OIC; migrated 30+ BI Publisher reports from EBS to Fusion Cloud.

AI AGENT PROJECTS

Multi-Agent Finance Automation Platform — [LangGraph](#) • [CrewAI](#) • [FastAPI](#) • [Python](#) • [Oracle Fusion REST](#)

- Architected a multi-agent system with LangGraph state machines and CrewAI agents automating Credit Memo, Rebill, and AP workflows.
- Designed a supervisor agent routing tasks to sub-agents (invoice validator, approvals, notifications) with Human-in-the-Loop checks.
- Exposed orchestration via async FastAPI over 8 Oracle Fusion Receivables REST APIs, cutting manual processing time by 70%.

Enterprise RAG Knowledge Assistant – ‘Ask Badger’ — [LangChain](#) • [LangGraph](#) • [Azure AI Search](#) • [FastAPI](#) • [Python](#)

- Built a production RAG assistant indexing 10K+ enterprise documents on Azure AI Search with hybrid vector + keyword retrieval.
- Implemented agentic retrieval where the LangGraph agent decides when to search, synthesize, or escalate, reaching 88% answer accuracy.
- Designed an LLM-as-judge evals pipeline scoring faithfulness, relevance, and groundedness with nightly CI/CD regression runs.

AI Vendor Onboarding Agent — [N8n](#) • [Copilot Studio](#) • [LangChain](#) • [Python](#) • [FastAPI](#)

- Built end-to-end vendor onboarding with N8n orchestrating email triggers, forms, approvals, and Oracle Fusion ERP updates.
- LangChain agents classify documents and run compliance checks, cutting onboarding from 5 days to same-day for 200+ vendors/month.

AI Evals & Agent Testing Framework — [Python](#) • [LangChain](#) • [OpenAI Evals](#) • [FastAPI](#)

- Built a reusable evals framework with 500+ curated test cases, LLM-as-judge rubrics, and GitHub Actions CI/CD regression runs.

Oracle Fusion Copilot Agents – Suite of 8 — [Copilot Studio](#) • [LangGraph](#) • [FastAPI](#) • [Oracle REST APIs](#)

- Designed and deployed 8 enterprise copilots across Finance, Procurement, HR, and Customer Service in Microsoft Copilot Studio.
- Implemented adaptive cards, dialog management, guardrails, and entity extraction; each agent backed by a FastAPI microservice on Azure.

CERTIFICATIONS

Oracle Integration Cloud (OIC) • Oracle AI Agent Studio • Oracle Vector Database • Claude AI Architect

EDUCATION

B.Tech, Computer Science Engineering | [Avanathi Institute of Engineering and Technology](#) | 2019 – 2023
